HAND CRICKET GAME — COMPLETE UI/UX REDESIGN PROMPT

“Clash of Cricket” — A Clash-of-Clans-Grade Mobile Game Experience

---

PROJECT CONTEXT

Repo: https://github.com/pyushmatania/handcricketgame-b4dd234f
Stack: React 18 + TypeScript + Vite + Tailwind CSS + shadcn/ui + Framer Motion + Supabase
Platform: Mobile-first web app (deployed via Lovable Cloud)
Current State: Functional hand cricket game with basic UI — needs a full visual overhaul to match premium mobile game aesthetics (Clash of Clans, Clash Royale, Golf Rush, Brawl Stars tier)

DESIGN VISION & NORTH STAR

Transform this hand cricket game from a flat web-app look into a **AAA-quality mobile game UI** that feels like it belongs on the App Store top charts. The visual language should be:

- **Supercell-grade polish** — thick outlines, 3D-rendered characters, layered depth, rich gradients
- **Cricket-themed world-building** — stadiums, pitches, crowd energy, bat/ball iconography everywhere
- **Cartoon-realism hybrid** — chunky 3D characters with exaggerated proportions (like Clash of Clans troops), but grounded in cricket gear and Indian cricket culture
- **Dopamine-maximizing UX** — every tap has feedback, every reward has a celebration, every screen transition has personality

---

REFERENCE SCREENSHOTS ANALYSIS (6 images provided)

The following screenshots were provided as the target aesthetic. Here's what to extract from each:

Image 1 — Golf Rush Main Screen

- **Top currency bar:** Horizontal bar with multiple currencies (coins, gems, premium currency) each with a green "+" button to add more. Settings gear icon on the far right. Player avatar/level on far left.
- **Promotional banners:** "OPEN NOW Free Chest" with a glowing chest icon on the left, "DAILY CHEST 5/10" progress bar on the right — both in a card-style banner below the currency bar.
- **Central stage area:** A 3D-rendered scene (barn/farm) inside a rounded-corner card with thick green border and inner shadow. Title "Green Farm" in bold cartoon font above.
- **Big "Play" CTA:** Massive blue button with white "Play ►" text, centered below the stage scene. Rounded, with a subtle emboss/bevel effect.
- **Bottom chest slots:** Row of 4 chest slots — one open (golden glow), one costing 100 gems (with timer), one locked with timer "2h 25m", one empty "CHEST SLOT". Each slot has its own card-style container.
- **Tab bar (bottom):** 6 icons — gifts, shop/bag, golf course (center/active), basket, friends (with badge "4"), and a refresh/spin button. Active tab is slightly raised with a green highlight.
- **Overall palette:** Green grass, blue sky gradient, warm yellows for CTAs, red for alerts/badges.

Image 2 — PvP VS Battle Screen (Brawl Stars style)

- **Split-screen diagonal composition:** Left player (orange/warm) vs right player (blue/cool) — the entire screen is divided diagonally.
- **Character art:** Full-bleed, high-detail cartoon character illustrations that fill the entire background. Massive, expressive, menacing.
- **"VS" typography:** Giant 3D white "VS" text with heavy drop shadow, centered at the diagonal split.
- **Player info pills:** Rounded pill-shaped containers showing player name, avatar, and trophy/rank count. Clean white backgrounds with colored borders.

- **No clutter:** This screen is pure hype — no buttons, no menus, just maximum visual impact before a match.

Image 3 — Clash Royale-Style Main Hub (Russian localization)

- **Top bar:** Player name/ID, arena level ("Арена 1"), trophies (60), plus multiple currency displays with "+" buttons.
- **Central character display:** A large 3D robot/golem character on an isometric grass platform, surrounded by smaller characters — the player's "army" or team lineup.
- **Character roster strip:** Horizontal scrollable strip of character portrait thumbnails (circular icons in wooden frame borders), numbered 1-5 below. Active character is slightly larger.
- **Dual game mode buttons:** Two large rectangular buttons side-by-side — "PvP" (yellow/warm, with trophy icon) and "PvE" (blue/cool, with coin icon). Each has a sub-label with rewards.
- **Chest unlock row:** Bottom area shows chest slots with timers ("2м") and lock icons.
- **Tab bar:** 5-6 tabs with badge notifications, centered "Бой" (Battle) tab with crossed swords icon.
- **Reward banner:** Golden "Забрать награду" (Claim Reward) banner stretching across the top.

Image 4 — Solitaire/Puzzle Game Map Screen

- **Chapter/world map:** Isometric 3D desert island scene with buildings, palm trees, pottery — a living environment, not a flat menu.
- **Progress tracker:** "CHAPTER 1" with checkmarks (✓✓✓○○) and a treasure chest at the end of the progress bar.
- **Currency bar top:** "$5555.00" with green dollar icon, "999K" with blue gem icon, and a purple "WITHDRAW" button — prominent monetization.
- **Mascot character:** A fox mascot on the right side with different expressions for SALE, BONUS GAME, and FREE offers — stacked vertically.
- **Big yellow "PLAY" button:** Massive, centered, yellow with rounded corners and a slight 3D extrude effect.
- **Bottom actions:** "Get Bonus" (red boxing glove), "PLAY" (center), "Free Gifts" (blue gift box).

- **Bottom tab bar:** Map (center/active), plus 2 other tabs with icons.

Image 5 — Character Select / Battle Deck Screen (Dark theme)

- **Character card system:** Central large card showing selected character ("MUMMY") with a golden ornate frame border. Character art is stylized 2D illustration.
- **Stats display:** Attack (4 diamond dots), Recovery (3.5 dots), Energy (3 dots) — using filled/empty diamond icons. Cost shown as "◆ 2500".
- **"SELECT" button:** Bright green with rounded corners, centered below the card.
- **Character carousel:** Other characters peek from behind the main card (Vampire, Zombies, Knight visible at edges) — swipeable carousel.
- **Battle Deck section below:** "BATTLE DECK" header in bold, followed by a row of 3 character slots (Skulls, Frankie, one empty) — each in their own bordered card with name label below.
- **Dark/moody palette:** Deep purples, blacks, with golden accents for frames and borders. Green for CTA.
- **Top bar:** Minimalist — gem count (7) with "+" button on left, gold count (3200) with "+" button on right.

Image 6 — Adventure/Battle Mode Selection Screen

- **Central game mode card:** Large blue-bordered card titled "Adventure" with a cartoon zombie/monster illustration inside. "Battle" button in orange/yellow at the bottom of the card.
- **Side cards peeking:** Other game modes visible at the left and right edges — swipeable carousel of game modes.
- **Stats bar:** "Cleared: 26 levels" with "Lorem ipsum dolor" subtitle (placeholder). Trophy count "240" with golden trophy icon.
- **Chest buttons:** "Free — Open chest" (green) and "Quest — Play 20 games" (blue) with progress bar — side by side.
- **Bottom bar:** Video icon (left), "Bonus" button with red badge "3" (center), crown/premium icon (right).
- **"Swipe up to explore area" hint:** Contextual UI hint at the very bottom.
- **Currency bar top:** Coins (10690), gems (25), and "..." menu button.

SCREEN-BY-SCREEN REDESIGN SPEC

SCREEN 1: SPLASH / LOADING SCREEN

Visual Treatment:

- Full-screen cinematic illustration of a cricket stadium at golden hour — packed crowd, floodlights blazing, dust particles in the air
- 3D logo "HAND CRICKET" in chunky, metallic gold letters with a cricket ball replacing the "O" — the ball should have visible seam stitching
- Animated loading bar styled as a cricket pitch (the green strip fills from one end to the other)
- Subtle particle effects: fireflies, confetti, or floating cricket ball trails
- A cartoon mascot character (see Character Design section) peeks from the bottom holding a bat

Assets to Generate:

1. `splash_bg.png` — 1080×1920 stadium illustration, golden hour lighting, isometric angle showing the full ground with packed stands
2. `logo_3d.png` — "HAND CRICKET" 3D metallic text with cricket ball integrated
3. `loading_bar_track.png` — cricket pitch-shaped progress bar track (green strip with white crease lines)
4. `loading_bar_fill.png` — animated fill element (glowing golden gradient)
5. `mascot_peek.png` — mascot character from waist up, holding a bat, excited expression

---

SCREEN 2: HOME / MAIN HUB SCREEN

This is the most important screen. It should feel like a living, breathing cricket world — not a flat menu.

Layout (top to bottom):

A) Top Currency & Player Bar

- **Left:** Circular player avatar with golden border ring + level badge (e.g., "Lvl 12"). Tap to open profile.

- **Center-right:** 3 currency displays in a horizontal row:
  - 🏏 **Runs** (primary soft currency) — cricket bat icon + count + green "+" button
  - 🪙 **Coins** (secondary currency) — gold coin icon + count + green "+" button
  - 💎 **Gems** (premium currency) — diamond icon + count + green "+" button
- **Far right:** Settings gear icon
- **Style:** Semi-transparent dark overlay bar with rounded bottom corners. Each currency in its own pill-shaped container with subtle inner shadow.

B) Promotional Banner Row

- Two side-by-side cards:
  - **Left card:** "FREE CHEST — OPEN NOW!" with a glowing animated chest icon. Tap to open. Uses a pulsing golden border animation.
  - **Right card:** "DAILY CHALLENGE — 3/10" with a progress bar. Cricket ball icon. Blue/silver theme.
- Cards have thick rounded borders, drop shadows, and slight 3D lift effect.

C) Central Stadium Stage (Hero Area)

- **The centerpiece of the entire screen.** A 3D isometric cricket stadium scene inside a large rounded-corner card.
- Stadium name displayed above in bold cartoon font: "GULLY GROUNDS" / "IPL ARENA" / "STREET PITCH" etc. depending on the player's current arena/level.
- The stadium scene shows:
  - A mini cricket pitch with stumps
  - Tiny crowd figures in the stands
  - Floodlights if it's a night stadium
  - The player's mascot character standing at the crease with a bat
  - Opponent's mascot character at the bowling end
- **Below the stadium card:** A massive "PLAY ▶" button — wide, rounded, bright green with white text, 3D emboss effect, subtle bounce animation on idle.

D) Arena/League Progress Bar

- Horizontal progress bar showing current arena progression (e.g., “Arena 2: Street Cricket → Arena 3: School Ground”)
- Current position marked with a trophy icon
- Milestone rewards shown as small chest icons along the bar

E) Chest Slot Row

- 4 chest slots in a horizontal row (like Clash Royale):
  - Slot states: Empty (dark silhouette), Locked (with timer “2h 30m”), Ready to Open (golden glow + “OPEN!” label), Opening (animated sparkles)
  - Each slot is a rounded-corner card with thick border
  - Chest designs vary: Bronze Chest, Silver Chest, Gold Chest, Diamond Chest — each with distinct visual identity

F) Bottom Tab Bar

- 5 tabs with icons:
  1. 🎁 **Shop** — gift box icon
  2. 🏏 **Collection** — bat & ball icon (for viewing your player cards)
  3. ⚔️ **Battle** (center, active, slightly raised) — crossed bats icon with a glowing highlight ring
  4. 👥 **Clan/Team** — group icon
  5. 🏆 **Leaderboard** — trophy icon
- Active tab has a raised platform effect with a bright colored indicator
- Badge notifications (red circles with numbers) on tabs that have pending items

Assets to Generate:

1. `home_bg.png` — soft gradient sky background (blue to warm orange at horizon) with distant stadium silhouettes
2. `stadium_gully.png` — 3D isometric “Gully Grounds” scene (street cricket setting with walls, dusty pitch, tin roofs)

3. `stadium_school.png` — 3D isometric "School Ground" scene (school building backdrop, proper pitch, small stands)
4. `stadium_ipl.png` — 3D isometric "IPL Arena" scene (massive stadium, packed crowd, floodlights, sponsor boards)
5. `stadium_street.png` — 3D isometric "Street Pitch" scene (narrow lane, parked cars, makeshift stumps)
6. `chest_bronze.png` — bronze chest with simple lock
7. `chest_silver.png` — silver chest with chain lock
8. `chest_gold.png` — ornate golden chest with gem-encrusted lock
9. `chest_diamond.png` — crystal/diamond chest with magical glow
10. `chest_open_effect.png` — burst/explosion effect for chest opening animation
11. `btn_play.png` — large green "PLAY" button with 3D depth (or build with CSS gradients)
12. `currency_runs.png` — cricket bat icon for runs currency
13. `currency_coins.png` — gold coin icon
14. `currency_gems.png` — blue/purple gem icon
15. `tab_shop.png`, `tab_collection.png`, `tab_battle.png`, `tab_clan.png`, `tab_leaderboard.png` — tab bar icons (active + inactive states)

SCREEN 3: PRE-MATCH / VS SCREEN

Visual Treatment (directly inspired by Image 2):

- **Full-screen split composition:** Left half = warm orange/red gradient, Right half = cool blue gradient. Diagonal split at ~30° angle.
- **Player characters:** Large 3D-rendered mascot characters on each side — the player's character on the left (batting stance), opponent on the right (bowling stance). Characters should be at least 60% of the screen height.
- **Giant "VS" text:** Center of screen, 3D extruded white text with heavy drop shadow and slight rotation. Animated entrance (slam in from top).
- **Player info pills:**
  - Left: Player name, avatar, trophy count — white pill with orange border

    - Right: Opponent name, avatar, trophy count — white pill with blue border
- **Background effects:** Particle effects (sparks, dust), subtle camera shake animation, energy lines radiating from center
- **Auto-transition:** This screen shows for 3-4 seconds then transitions to the match screen with a zoom-in effect.

Assets to Generate:

1. `vs_bg_left.png` — warm gradient with abstract cricket pattern (bat silhouettes, ball trails)
2. `vs_bg_right.png` — cool gradient with abstract bowling pattern
3. `vs_text_3d.png` — "VS" 3D text element (or build with CSS transforms)
4. `char_batsman_hero.png` — large 3D mascot in batting pose (exaggerated, heroic, Supercell-style)
5. `char_bowler_villain.png` — large 3D mascot in bowling pose (intimidating, rival energy)
6. `vs_particles.png` — spark/energy particle sprites for animation
7. `vs_lightning.png` — electric arc effects between the two sides

SCREEN 4: MATCH / GAMEPLAY SCREEN

Layout:

A) Scoreboard Header

- **Clean, dark semi-transparent overlay bar** at the top
- Left: Player avatar + name + current score (large bold number)
- Center: "Ball X/6" indicator (with 6 ball dots — filled = bowled, empty = remaining, like a cricket over tracker)
- Right: Opponent avatar + name + current score
- Below the main bar: "Target: 45 runs" or "Overs: 2.3/5" — contextual match info

B) Cricket Pitch Area (Center)

- **3D perspective view** of a cricket pitch occupying the middle 50% of the screen
- The pitch should show:
  - Stumps at both ends with visible bails
  - Crease lines (popping crease, bowling crease)
  - Pitch texture (worn grass, dry earth patches)
  - The batsman character at one end
  - The bowler character at the other end
- **Ball trajectory animation:** When a hand is played, animate a cricket ball traveling down the pitch with a trail effect
- **Shot result popup:** When the result is calculated, show a large animated number (+1, +2, +4, +6, OUT!) with effects:
  - 1 run: small green popup
  - 2 runs: medium blue popup
  - 4 runs (boundary): large golden popup with "FOUR!" text and crowd cheering particle effect
  - 6 runs (six): massive red/orange popup with "SIX!" text, fireworks, and stadium lights flash
  - OUT: dramatic red "OUT!" with shattered stumps animation and slow-motion effect

C) Hand Selection Area (Bottom)

- **The core interaction.** 6 large circular buttons arranged in a 3×2 grid or a curved arc:
  - Numbers 1 through 6, each in a chunky 3D circular button
  - Each button has a distinct color:
    - 1 = Green (single)
    - 2 = Blue (couple)
    - 3 = Teal (three)
    - 4 = Yellow/Gold (boundary)
    - 5 = Orange (five)

        - 6 = Red/Crimson (six — maximum!)
    - On press: button depresses (3D press effect), slight haptic feedback, and the number flies toward the pitch
    - After selection: brief 1-second suspense animation while opponent's hand is revealed

D) Match Commentary Strip

- Thin strip above the hand buttons showing scrolling text commentary:
    - "What a shot! Straight over the bowler's head!"
    - "Dot ball. The tension builds..."
    - "WICKET! Clean bowled!"
- Text appears with a typewriter animation effect
- Commentary adds personality and hype to each ball

Assets to Generate:

1. `pitch_3d.png` — 3D perspective cricket pitch (top-down angled view, with grass texture, crease lines, stumps)
2. `stumps.png` — detailed 3D stumps with bails
3. `batsman_stance.png` — batsman character in ready stance (from behind, like a cricket video game camera)
4. `bowler_runup.png` — bowler character in various bowling phases (run-up, delivery, follow-through)
5. `ball_cricket.png` — red cricket ball with visible seam, for trajectory animation
6. `ball_trail.png` — motion blur/trail sprite for ball animation
7. `effect_four.png` — "FOUR!" celebration graphic with golden burst
8. `effect_six.png` — "SIX!" celebration graphic with fireworks
9. `effect_out.png` — "OUT!" graphic with shattered stumps
10. `effect_wicket.png` — stumps breaking apart animation frames (sprite sheet)
11. `btn_hand_1.png` through `btn_hand_6.png` — 6 hand selection buttons (or build with CSS — chunky 3D circles with numbers)

12. `crowd_cheer_overlay.png` — semi-transparent crowd celebration overlay for boundaries

---

SCREEN 5: PLAYER CARD / CHARACTER SELECT SCREEN

Directly inspired by Image 5 (Mummy character select).

Layout:

A) Character Card Carousel

- Central large card (takes up ~60% of screen height) showing the selected player character:
  - **Golden ornate border frame** (thick, with corner flourishes)
  - Character name in a banner ribbon across the top: "VIRAT" / "DHONI" / "BUMRAH" etc.
  - Full character illustration inside the card
  - Stats below the illustration:
    - **Batting:** ◆◆◆◆◇ (diamond dots, filled = strength)
    - **Bowling:** ◆◆◇◇◇
    - **Fielding:** ◆◆◆◇◇
    - **Power:** ◆◆◆◆◆ (special ability rating)
  - Cost/unlock requirement: "🪙 2500" or "💎 500" or "🔒 Reach Arena 5"
- Other characters visible at left/right edges (peek from behind the main card) — swipeable carousel
- **"SELECT" button** below the card — bright green, chunky, rounded

B) Team / Battle Deck Section

- Below the carousel: "YOUR TEAM" header
- Row of 5 player slots (like Image 5's Battle Deck):
  - Each slot shows a small circular character portrait in a bordered frame
  - Slot 1-3: filled with selected characters (labeled below: "Opener", "Middle Order",

"Bowler")

  - Slot 4-5: empty (dark silhouette with "+" icon)

- Tap an empty slot to add from the carousel above

C) Top Bar

- Minimal: currency counts (coins + gems) with "+" buttons

Character Design Direction (for AI image generation):

Create **8-10 unique cricket player characters** in a Supercell/Clash of Clans style:

- **Chunky, exaggerated proportions** — big heads (~40% of body height), thick arms, small legs
- **Distinct silhouettes** — each character should be recognizable from silhouette alone
- **Cricket gear:** helmets, pads, gloves, bats, balls — all slightly oversized and cartoonified
- **Indian cricket culture references:** colorful jerseys (blue, yellow, purple, orange — IPL team vibes), bindis, turbans, diverse skin tones
- **Personality through pose:** aggressive batsman mid-swing, cool bowler mid-delivery, flashy fielder diving

Character Roster:

1. **"Captain" (All-rounder)** — Blue jersey, classic cricket helmet, bat over shoulder, confident smirk. Stats: Bat ◆◆◆◆ / Bowl ◆◆◆ / Field ◆◆◆
2. **"Slogger" (Power Hitter)** — Massive arms, tiny legs, sleeveless jersey, bat raised high. Yellow jersey. Stats: Bat ◆◆◆◆◆ / Bowl ◆ / Field ◆◆
3. **"Spinner" (Spin Bowler)** — Lanky, turban-wearing, one finger raised showing off spin grip. Purple jersey. Stats: Bat ◆◆ / Bowl ◆◆◆◆◆ / Field ◆◆◆
4. **"Pacer" (Fast Bowler)** — Tall, athletic build, mid-delivery stride, ball glowing with speed lines. Green jersey. Stats: Bat ◆ / Bowl ◆◆◆◆◆ / Field ◆◆
5. **"Wall" (Defensive Batsman)** — Stocky, helmet with full face guard, defensive stance. Orange jersey. Stats: Bat ◆◆◆◆ / Bowl ◆◆ / Field ◆◆◆◆
6. **"Flash" (Quick Runner/Fielder)** — Slim, aerodynamic, diving catch pose. Pink jersey. Stats: Bat ◆◆◆ / Bowl ◆◆ / Field ◆◆◆◆◆
7. **"Legend" (Rare/Legendary)** — Glowing golden aura, elaborate helmet, bat with flame

trail. White jersey with gold trim. Stats: Bat ◆◆◆◆◆ / Bowl ◆◆◆◆ / Field ◆◆◆◆

8. **"Rookie" (Starter)** — Young, nervous expression, oversized helmet falling over eyes, bat too big for them. Plain white jersey. Stats: Bat ◆◆ / Bowl ◆◆ / Field ◆◆

Assets to Generate:

1. `card_frame_common.png` — simple silver border frame
2. `card_frame_rare.png` — blue border frame with gem accents
3. `card_frame_epic.png` — purple border frame with glowing edges
4. `card_frame_legendary.png` — golden ornate frame with animated sparkle points
5. `char_captain.png` — full illustration (512×512 minimum, transparent background)
6. `char_slogger.png` — full illustration
7. `char_spinner.png` — full illustration
8. `char_pacer.png` — full illustration
9. `char_wall.png` — full illustration
10. `char_flash.png` — full illustration
11. `char_legend.png` — full illustration
12. `char_rookie.png` — full illustration
13. `char_captain_thumb.png` through `char_rookie_thumb.png` — circular thumbnail versions for team slots
14. `slot_empty.png` — empty team slot with "+" icon
15. `btn_select.png` — green "SELECT" button

SCREEN 6: CHEST OPENING / REWARD SCREEN

The dopamine hit. This screen needs to feel AMAZING.

Sequence:

1. **Chest appears:** The chest slides up from the bottom into the center of the screen. Background darkens. Dramatic spotlight from above.
2. **Tap to open:** "TAP TO OPEN!" text pulses. On tap, the chest shakes violently for 0.5

seconds.

3. **Burst open:** Chest lid flies off, golden light beams shoot upward, particles explode outward. Screen flashes white briefly.
4. **Rewards fly in:** Individual reward items fly in from the top one by one with a satisfying "clink" sound:
   - "+500 Coins" (gold pile icon)
   - "+50 Runs" (bat icon)
   - "NEW CHARACTER: Spinner!" (character card flips in and glows)
   - "+10 Gems" (gem icon)
5. **Summary:** All rewards displayed in a grid. "COLLECT" button at the bottom (green, chunky).

Assets to Generate:

1. `chest_bronze_closed.png` — bronze chest, closed, front view
2. `chest_bronze_opening.png` — bronze chest mid-open, lid lifting
3. `chest_silver_closed.png` — silver chest, closed
4. `chest_gold_closed.png` — gold chest, closed (more ornate)
5. `chest_diamond_closed.png` — diamond/crystal chest, closed (most ornate)
6. `reward_burst.png` — golden light burst effect
7. `reward_beam.png` — vertical light beam effect
8. `reward_coins_pile.png` — stack of gold coins icon
9. `reward_runs_icon.png` — cricket bat icon for runs
10. `reward_gem_icon.png` — gem icon
11. `reward_card_glow.png` — glowing card reveal effect

SCREEN 7: MATCH RESULT / POST-MATCH SCREEN

Layout:

Win State:

- Background: Fireworks, confetti, stadium lights flashing
- Large “VICTORY!” text in 3D gold letters, animated slam-in
- Player character doing a victory celebration pose (bat raised, jumping)
- Trophy/stars earned: 1-3 stars based on performance
- Rewards summary: coins, runs, trophies gained
- “PLAY AGAIN” (green) and “HOME” (grey) buttons

Lose State:

- Background: Muted, rain effect, stadium lights dimmed
- “DEFEATED” text in silver/grey
- Player character looking dejected (head down, bat dragging)
- Trophies lost counter
- “PLAY AGAIN” (green, prominent) and “HOME” (grey) buttons
- Motivational text: “Almost had it! Try again?”

Assets to Generate:

1. `result_victory_bg.png` — celebration background with fireworks
2. `result_defeat_bg.png` — moody/rainy background
3. `text_victory_3d.png` — “VICTORY!” 3D gold text
4. `text_defeat_3d.png` — “DEFEATED” 3D silver text
5. `char_celebrate.png` — mascot celebration pose
6. `char_dejected.png` — mascot defeat pose
7. `star_earned.png` — golden star
8. `star_empty.png` — grey/outline star
9. `confetti_sprites.png` — spritesheet of confetti pieces for particle animation
10. `trophy_gain.png` — trophy with green “+” arrow
11. `trophy_loss.png` — trophy with red “-” arrow

SCREEN 8: SHOP SCREEN

Layout (inspired by Image 4's monetization approach):

- **Header:** "SHOP" in bold with a cart/bag icon
- **Featured Deal Banner:** Large banner at top — "STARTER PACK — 80% OFF!" with a timer countdown. Shows a bundle (chest + coins + gems) with a price button.
- **Currency Sections:**
  - **Coins section:** Grid of 6 coin bundles (100/500/1000/5000/10000/50000) with increasing pile sizes and real-money prices
  - **Gems section:** Grid of gem bundles (similar structure)
  - **Special Offers:** Time-limited character cards, exclusive skins
- **Each item card:** Product image + amount + original price crossed out + sale price + "BUY" button
- **Free section:** "Watch ad for 50 coins", "Daily free chest"

SCREEN 9: LEADERBOARD / RANKINGS SCREEN

- **Tab switcher at top:** "Global" / "Friends" / "Clan"
- **Your rank highlighted:** Your row is always visible with a golden highlight, even if you're rank #4,567
- **Each player row:** Rank number + avatar + name + trophy count + arena badge
- **Top 3 have special treatment:** Gold/Silver/Bronze crown icons, slightly larger rows
- **Scrollable list** with alternating row backgrounds (dark/darker)

GLOBAL DESIGN SYSTEM

Color Palette

Token	Hex	Usage
`--primary-green`	`#4CAF50`	Play buttons, positive actions, win states

`--primary-gold`	`#FFD700`	Premium elements, legendary items, rewards
`--primary-blue`	`#2196F3`	Info, secondary actions, cool team color
`--accent-red`	`#F44336`	Alerts, OUT!, badges, hot deals
`--accent-orange`	`#FF9800`	Warning, warm team color, six/boundary
`--accent-purple`	`#9C27B0`	Epic rarity, premium currency, magic effects
`--bg-dark`	`#1A1A2E`	Dark backgrounds, overlays
`--bg-medium`	`#16213E`	Card backgrounds (dark theme screens)
`--bg-light`	`#E8F5E9`	Light backgrounds, stadium sky
`--surface-card`	`#FFFFFF` with 90% opacity	Card surfaces
`--text-primary`	`#FFFFFF`	Primary text on dark backgrounds
`--text-secondary`	`#B0BEC5`	Secondary/subtitle text
`--border-card`	`#3D5A80`	Card borders
`--border-gold`	`#DAA520`	Premium card borders

Typography

Element	Font	Size	Weight	Style
Game Logo	Custom/Bungee Shade	48-64px	900	3D extruded, drop shadow
Screen Titles	Bungee / Lilita One	28-36px	700	All caps, slight letter spacing
Card Titles	Bungee / Fredoka One	20-24px	700	Title case
Body Text	Nunito / Rubik	14-	400-	Normal

		16px	600	
Button Text	Nunito / Rubik	16-20px	700	All caps, letter spacing 1px
Currency Numbers	Rubik / Space Mono	18-22px	700	Tabular numerals
Commentary	Merriweather / Georgia	13-14px	400	Italic
Badge Numbers	Rubik	12px	700	White on red circle

UI Component Library

Buttons

- **Primary (Play/Select):** Rounded rectangle (border-radius: 16px), 3D effect with darker bottom border (4px), gradient fill (light→dark of primary color), white bold text, active state presses down (translateY +2px, shadow reduces). Min height: 56px.
- **Secondary (Home/Back):** Same shape, grey gradient, lighter text.
- **Currency "+" Button:** Small green circle (32px) with white "+" icon, subtle pulse animation.
- **Danger (Out/Quit):** Red gradient, white text.

Cards

- **Border radius:** 16-20px
- **Border:** 3px solid with color based on rarity (grey=common, blue=rare, purple=epic, gold=legendary)
- **Shadow:** `0 4px 12px rgba(0,0,0,0.3)` + `inset 0 1px 2px rgba(255,255,255,0.1)` (inner highlight)
- **Background:** Semi-transparent gradient

Stat Diamonds

- Filled: Solid colored diamond icon (◆) — color matches stat type
- Empty: Outline-only diamond (◇) — grey

- Render as inline SVGs for crisp rendering at any size

Chest Slots

- Dimensions: ~80×80px each
- States: Empty (dark silhouette), Locked (full color + lock icon + timer), Ready (golden glow animation), Opening (sparkle particle animation)

Tab Bar

- Height: 64px
- Background: Dark gradient with top border line
- Active tab: Icon is white, has a raised "platform" effect (elevated background circle/pill), plus a colored dot indicator
- Inactive tab: Icon is grey/muted

Progress Bars

- Track: Dark rounded rectangle (border-radius: 8px), 12px height
- Fill: Gradient in primary color, animated width transition
- Optional: Milestone markers along the track

ANIMATION & MOTION SPEC (Framer Motion)

Page Transitions

- **Screen enter:** Slide in from right (x: 100% → 0) with spring physics (stiffness: 300, damping: 30)
- **Screen exit:** Slide out to left (x: 0 → -100%) with faster easing
- **Modal/overlay:** Fade in (opacity: 0→1) + scale up (scale: 0.9→1) with spring

Micro-interactions

- **Button press:** scale(0.95) for 100ms, then spring back. Plus a subtle color darken.
- **Card tap:** scale(0.97) with 80ms transition

- **Currency gain:** Number does a "+X" fly-up animation (green text, floats up and fades)
- **Badge appear:** Scale from 0 → 1.2 → 1 (overshoot bounce)

Match Animations

- **Hand selection:** Selected number scales up, glows, then flies toward the pitch center
- **Ball delivery:** Ball travels down the pitch with a parabolic arc, slight spin rotation
- **Run scored:** Score number pops up with scale animation, color-coded
- **Boundary (4):** Screen edge flashes gold, "FOUR!" slams in from top, bounces, then fades
- **Six:** Fireworks particle burst from ball landing point, "SIX!" text with fire effect, screen shake
- **Wicket:** Stumps fly apart (physics-based animation), red flash, dramatic slow-down

Chest Opening

- **Chest entrance:** Slide up from bottom with bounce
- **Shake:** rotateZ alternating ±5° for 4 cycles, increasing speed
- **Burst:** Scale from 1→1.3 instantly, then particles fly outward in all directions
- **Reward items:** Each item delays 300ms, drops in from top with bounce (y: -200 → 0, spring)

3D ASSET GENERATION PROMPTS

Use these prompts with AI image generation tools (Midjourney, DALL-E, Stable Diffusion, Leonardo AI, or Flux) to create all the visual assets:

Stadium Assets

Prompt 1 — Gully Cricket Stadium:

```
Isometric 3D render of an Indian gully cricket scene, narrow residential lane bet
```

Prompt 2 — School Ground Stadium:

```
Isometric 3D render of an Indian school cricket ground, dusty red earth pitch wit
```

Prompt 3 — IPL Arena Stadium:

```
Isometric 3D render of a massive modern cricket stadium at night, packed crowd of
```

Prompt 4 — Beach Cricket Stadium:

```
Isometric 3D render of a beach cricket setting, sandy pitch near the ocean shorel
```

Character Assets

Prompt 5 — Captain (All-rounder):

```
3D render of a cartoon cricket player character, Clash of Clans Supercell art sty
```

Prompt 6 — Slogger (Power Hitter):

```
3D render of a cartoon cricket power hitter character, Supercell Clash of Clans s
```

Prompt 7 — Spinner (Spin Bowler):

```
3D render of a cartoon spin bowler cricket character, Supercell art style, lanky
```

Prompt 8 — Pacer (Fast Bowler):

```
3D render of a cartoon fast bowler cricket character, Supercell art style, tall a
```

Prompt 9 — Legend (Legendary Character):

```
3D render of a legendary cricket player character, Supercell art style, regal pow
```

Prompt 10 — Rookie (Starter Character):

```
3D render of a cute young rookie cricket player character, Supercell art style, s
```

UI Element Assets

Prompt 11 — Cricket Chests:

```
Set of 4 fantasy cricket treasure chests, Supercell game art style, arranged in a
```

Prompt 12 — Cricket Ball (UI Icon):

```
3D render of a red cricket ball, Supercell art style, chunky exaggerated stitchin
```

Prompt 13 — Cricket Bat (UI Icon):

```
3D render of a cricket bat, Supercell art style, English willow style with visibl
```

Prompt 14 — Trophy / Cup Icon:

```
3D render of a golden cricket trophy cup, Supercell art style, ornate design with
```

Prompt 15 — Game Logo:

```
3D metallic text logo "HAND CRICKET", Supercell game logo style, chunky extruded
```

IMPLEMENTATION NOTES FOR THE DEVELOPER

Tech Stack Compatibility

- All assets should be **PNG with transparency** (except backgrounds which can be JPG for file size)
- Target resolution: **2x** for retina (e.g., if displayed at 128px, generate at 256px)
- Use **WebP** format where possible for production (convert PNGs to WebP for ~40% smaller files)
- Animations should use **Framer Motion** (already in the project) — not CSS @keyframes
- For particle effects, consider adding **tsparticles** (`react-tsparticles`) or use **canvas-confetti** (already in the project)
- 3D perspective effects on the pitch can be achieved with **CSS transforms** (perspective, rotateX) — no need for Three.js unless going full 3D

Fonts to Install

Add to `index.html` or import via Google Fonts:

```
<link href="https://fonts.googleapis.com/css2?family=Bungee&family=Bungee+Shade&f
```

Tailwind Config Extensions

```
// tailwind.config.ts additions
theme: {
  extend: {
    colors: {
      'game-green': '#4CAF50',
      'game-gold': '#FFD700',
      'game-blue': '#2196F3',
      'game-red': '#F44336',
      'game-orange': '#FF9800',
      'game-purple': '#9C27B0',
      'game-dark': '#1A1A2E',
      'game-medium': '#16213E',
    },
    fontFamily: {
      'display': ['Bungee', 'sans-serif'],
      'display-3d': ['Bungee Shade', 'sans-serif'],
      'title': ['Lilita One', 'sans-serif'],
      'body': ['Nunito', 'sans-serif'],
      'mono': ['Rubik', 'sans-serif'],
    },
    boxShadow: {
      'game-card': '0 4px 12px rgba(0,0,0,0.3), inset 0 1px 2px rgba(255,255,255,
      'game-button': '0 4px 0 rgba(0,0,0,0.3), 0 6px 12px rgba(0,0,0,0.2)',
      'game-button-pressed': '0 2px 0 rgba(0,0,0,0.3), 0 3px 6px rgba(0,0,0,0.2)'
    },
    animation: {
      'pulse-glow': 'pulse-glow 2s ease-in-out infinite',
      'bounce-in': 'bounce-in 0.5s cubic-bezier(0.68, -0.55, 0.265, 1.55)',
      'float': 'float 3s ease-in-out infinite',
      'shake': 'shake 0.5s cubic-bezier(.36,.07,.19,.97) both',
    },
  }
}
```

SUMMARY CHECKLIST

Asset Generation (Total: ~80+ unique assets)

- 1 splash screen background
- 1 game logo (3D)
- 4-5 stadium scenes (isometric 3D)
- 8 character illustrations (full body, Supercell style)
- 8 character thumbnails (circular)
- 4 chest designs (bronze/silver/gold/diamond) × 2 states (closed/open)
- 6 hand selector buttons
- 5 tab bar icons × 2 states
- 3 currency icons
- 4 card frames (rarity levels)
- 10+ effect/particle sprites
- 5 background images
- 3D “VS”, “VICTORY!”, “DEFEATED”, “FOUR!”, “SIX!”, “OUT!” text elements
- Pitch view with stumps, ball, bat elements
- Mascot character variations (celebration, defeat, peek, batting, bowling)

Screens to Build (Total: 9 screens)

- Splash/Loading Screen
- Home/Main Hub
- Pre-Match VS Screen
- Match/Gameplay Screen
- Character Select Screen
- Chest Opening Screen
- Match Result Screen
- Shop Screen

- Leaderboard Screen

Key UX Flows

- Home → Tap Play → VS Screen → Match → Result → Home (core loop)
- Home → Tap Chest → Chest Opening → Rewards → Home
- Home → Collection Tab → Character Select → Team Builder → Home
- Home → Shop Tab → Purchase → Currency Updated → Home
- Home → Leaderboard Tab → View Rankings → Home

This prompt is designed to be handed to a UI/UX developer or AI coding tool as a complete specification. Every screen, every asset, every animation, every color, and every component is defined. The developer should be able to build the entire frontend from this document alone.
